WATER CONSERVATION EDUCATION MATERIALS
from
The New Mexico Office of the State Engineer

Coyote Tales, Grades Pre K-1 "How Coyote Brought Us Water" & "Coyote Wanders Up River" are loosely based on tales from New Mexico's native people. Bold type makes it easy to read and the black-and-white drawings are fun to color. The books are available in both English and Spanish. A limited number of Teacher's Guides are available.	**Rio! The Water Detective, Grades 2-3** A colorful student booklet for grades 2-3. Appropriate to share with family. Includes hands on activities and games. A teachers guide provides additional classroom activities, background material and correlations to PED Standards.	**Conserve Water, Grades 4-7** This 14-page color booklet includes fun facts, background information, games, science experiments, and more. Created in bright colors with great graphics and published by The Watercourse, a not-for-profit group out of Montana State University.
Learning to Xeriscape, A Hands-On, Problem-Solving Curriculum for Mid- and High-School Students, Grades 6-12 This 360 page curriculum contains background information & activities that address real-life issues. Correlates to PED Standards. ***Available on CD only.***	**Agua Action, Grades Pre K-12** A water conservation pamphlet that unfolds ito a colorful classroom poster. Indoor and outdoor conservation tips are useful for both school and home, suitable for any grade. Available in both English and Spanish.	**Discover the Waters of NM Grades 4-7** A booklet includes fun facts about the waters of New Mexico. Filled with games, science experiments and much more.
