

Memorandum

Date: June 18, 2002

From: Karen Lewis, Debbie Hathaway, SSP&A

To: Mike Velasquez, USACE
Kevin Flanigan, NMISC

Subject: Progress report, 4/21/02 to 05/18/02, MRGWSS Phase 3

Work on Phase 3 of the Middle Rio Grande Water Supply Study (MRG3) from April 21, 2002 to May 18, 2002 has focused primarily on performing a critical review of the Sandia National Labs model being used by the Middle Rio Grande Water Assembly in their water planning assessment.

Task 1:

No work was done in this task area during this billing period.

Task 2:

No work was done in this task area during this billing period.

Task 3:

No work was done in this task area during this billing period.

Task 4:

- Reviewed Sandia National Labs model documentation to ascertain model suitability for assessing regional water planning alternatives in the Middle Rio Grande planning region and to assess differences between the SSPA and SNL models.
- Met with Sandia National Labs in Albuquerque to review SNL model. Drafted joint SNL/SSPA summary of the meeting results.
- Delivered SSPA flow data and data distributions to SNL for use in the SNL model.
- Reviewed the MRG preliminary water planning alternatives.

Task 5 and 6:

No work was done in these task areas during this billing period.
