PUEBLO DE SAN ILDEFONSO, and )  
PUEBLO DE TESUQUE, )  
)  
Plaintiffs-in-Intervention. )

**Objections to the Aamodt Settlement:**

I am requesting immunity from priority calls and any other actions the State (other than existing State statute) or Pueblos might take against my irrigation rights and wells. My domestic wells, pre basin wells and acequia rights need to be adjudicated by the court but the rest of the settlement provisions should not apply to my rights.

The HKM report for the BOR and subsequent funding of the water project for the settlement has left our area out of the water line plan due to costs. We are being discriminated against in this settlement. It is like being taxed without representation.

The community of Chupadero and all areas north of Tesuque along the Route 592 corridor will not be provided the "benefits" of the water utility in the settlement. Our community is perhaps the most needy of the water diversion line because our river has not run in at least 6 years. Our aquifer has dropped to the extent that many of the old bosque trees have died out.
