RE: Motion for Leave to File Objection

We, Heather and Terrence Nordquist, owners of both surface and domestic well ground rights at our residence at 40 County Road 84B, Santa Fe, NM, 87506, request that we be allowed to file an objection to the Aamodt Settlement.

We entered into a real estate contract to purchase our home on April 4, 2014. The closing date of our home purchase was May 13, 2014. The previous owners did not ask us for our election during the purchase process and entered an acceptance of the Aamodt Settlement prior to the deadline of April 9, 2014.

Due to some confusion regarding our water rights at the Office of the State Engineer, we hired legal counsel to properly transfer our domestic well rights. Because of this delay, we were only able to complete the transfer of these water rights into our name on September 9, 2014.

Due to the extenuating circumstances of our home purchase, we ask all parties to the Aamodt Settlement to agree that we can now file our objection to the court for consideration. We would be filing objections for water rights file numbers SD-0105 and RG-39893.

Thank you for your time in this matter.

Sincerely,

  
Heather Nordquist
