

To: The Office of the State Engineer

Subject: Well RG-1143

I, Jose Luis Roybal hired BARNEY ISBELL to drill the well in 1953. At that time, there was no paper work to sign. A hand pump was installed and the neighbors used the well in area since it was the first well to be drilled in this neighborhood. In the year 1957, the well collapsed and needed to be deepened, and a permit was submitted to The State of New Mexico Engineering office. I am not sure when the well number RG-1143 was assigned to this well.

Thank You

Jose Luis Roybal Date: 6-10-16
