The Court FINDS:

1. The Court has jurisdiction over the defendant(s) and the subject matter of this suit.

By their signatures appearing below, the State and the Defendant(s) have approved and accepted the elements of Defendant's water rights as set forth below.
3. There is no just reason to delay entry of this Consent Order as a final judgment as between the Plaintiff State of New Mexico and the defendant(s) regarding the elements of the claims of the defendant(s) adjudicated by this Consent Order.

IT IS THEREFORE ORDERED that the right of the defendant(s) to divert and use the public waters of the Rio Grande Underground Water Basin and the Nambe-Pojoaque-Tesuque stream system is as follows:

Place of Use: Within the property owned by the Defendant(s) served by the well
Amount of water: Not to exceed a diversion and consumption of 0.7 acre feet per year from the well described above unless a more restrictive diversion limit applies pursuant to court order, covenant or ordinance.

These water rights are subject to objection by any other water right owner with standing in a later (*inter se*) phase of this adjudication suit when water right owners may object between themselves to individual adjudication orders. The rights are also subject to the entry of the final decree in this case.

IT IS FURTHER ORDERED that the defendant(s) are enjoined from any diversion or use of the waters of the Nambe-Pojoaque-Tesuque Stream system except in accordance with the rights adjudicated in this order or any other order of the Court.
