NOTICE OF INTER SE PROCEEDING AND DEADLINE FOR FILING INTER SE OBJECTIONS TO NON-PUEBLO WATER RIGHTS OF THE NAMBE-POJOAQUE-TESUQUE STREAM SYSTEM

POJOAQUE-TESUQUE STREAM SYSTEM

TO: ALL CLAIMANTS, KNOWN AND UNKNOWN, WHO CLAIM A RIGHT TO USE THE SURFACE OR UNDERGROUND WATERS OF THE NAMBE-POJOAQUE-TESUQUE STREAM SYSTEM.

YOU ARE HEREBY NOTIFIED that the United States District Court, District of New Mexico, is conducting an inter se proceeding to hear inter se objections to the final adjudication of remaining non-Pueblo water rights in the Nambé-Pojoaque-Tesuque Stream System ("Pojoaque Basin") described below, and to enter a proposed Final Judgment and Decree finally adjudicating all claims to divert or impound and beneficially use water in the Pojoaque Basin that will be final and binding on all persons claiming water rights within the Pojoaque Basin.

This proceeding is to provide notice and an opportunity to file inter se objections to all remaining non-Pueblo water rights that have not yet been subject to inter se. You have the right to file inter se objections. If your water rights will be affected by the final determination of the following water rights for water right elements:

1. all elements of non-Pueblo ground water rights;
2. the source of water, point of diversion and priority dates of non-Pueblo surface water rights served by Las Acequias de Chupadero from the Rio en Medio; or
3. additional sources of water that have been adjudicated to non-Pueblo surface water rights since 1983 as follows: (a) the Rio Tesuque, Barry's Spring, Dona Inez Spring, Spring "A," Spring "B," and Spring "C" as additional sources of water for non-Pueblo surface water rights served by the Acequia Larga de Jacona; (b) Pojoaque Creek and the Rio Tesuque as additional sources of water for non-Pueblo surface water rights served by the Acequia Ancon de Jacona; and (c) all elements of surface water rights adjudicated under Subrules Nos. 311, 312, and 313.

In addition to the extent consistent with prior orders of the Court and the Settlement Agreement, the Pueblos and the United States may file inter se objections to non-Pueblo surface water priorities.

Any person who is affected by a water right identified as a provisional water right in the proposed Final Judgment and Decree and wishes to receive a notice of any changes to the provisional water right must file an inter se objection to the provisional water right.

The Court has made previous determinations on the remainder of the water right claims of Pueblo and non-Pueblo claimants that are binding on all claimants, known and unknown, to the right to divert and use water in the Pojoaque Basin.
