

Explanation
 line of equal saturated thickness, ft
 From: Ash, 1963

Figure 26. Map showing approximate saturated thickness of the Ogallala Formation, 1952, Lea County, New Mexico.

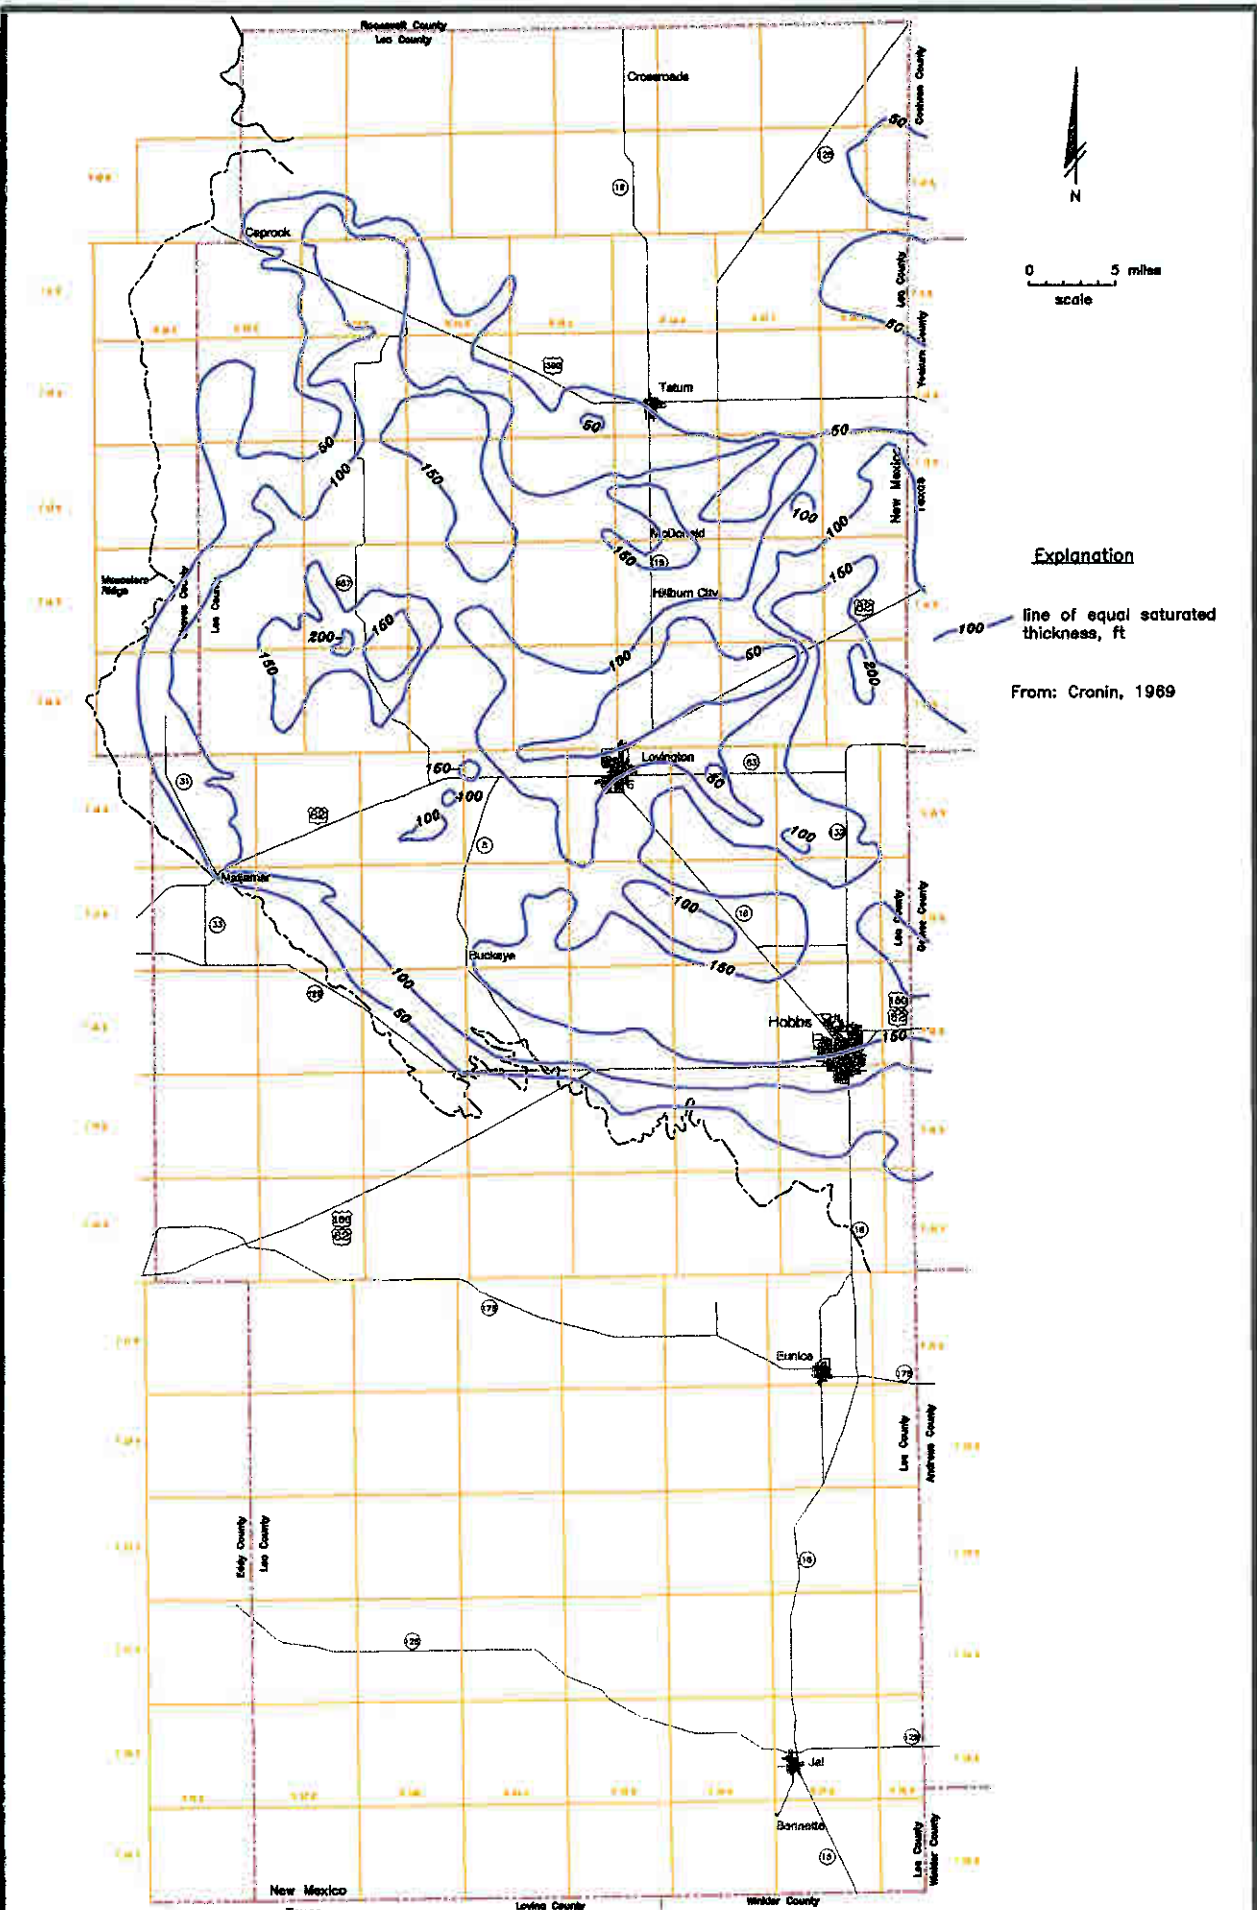

Figure 27. Map showing approximate saturated thickness of the Ogallala Formation, 1967, Lea County, New Mexico.

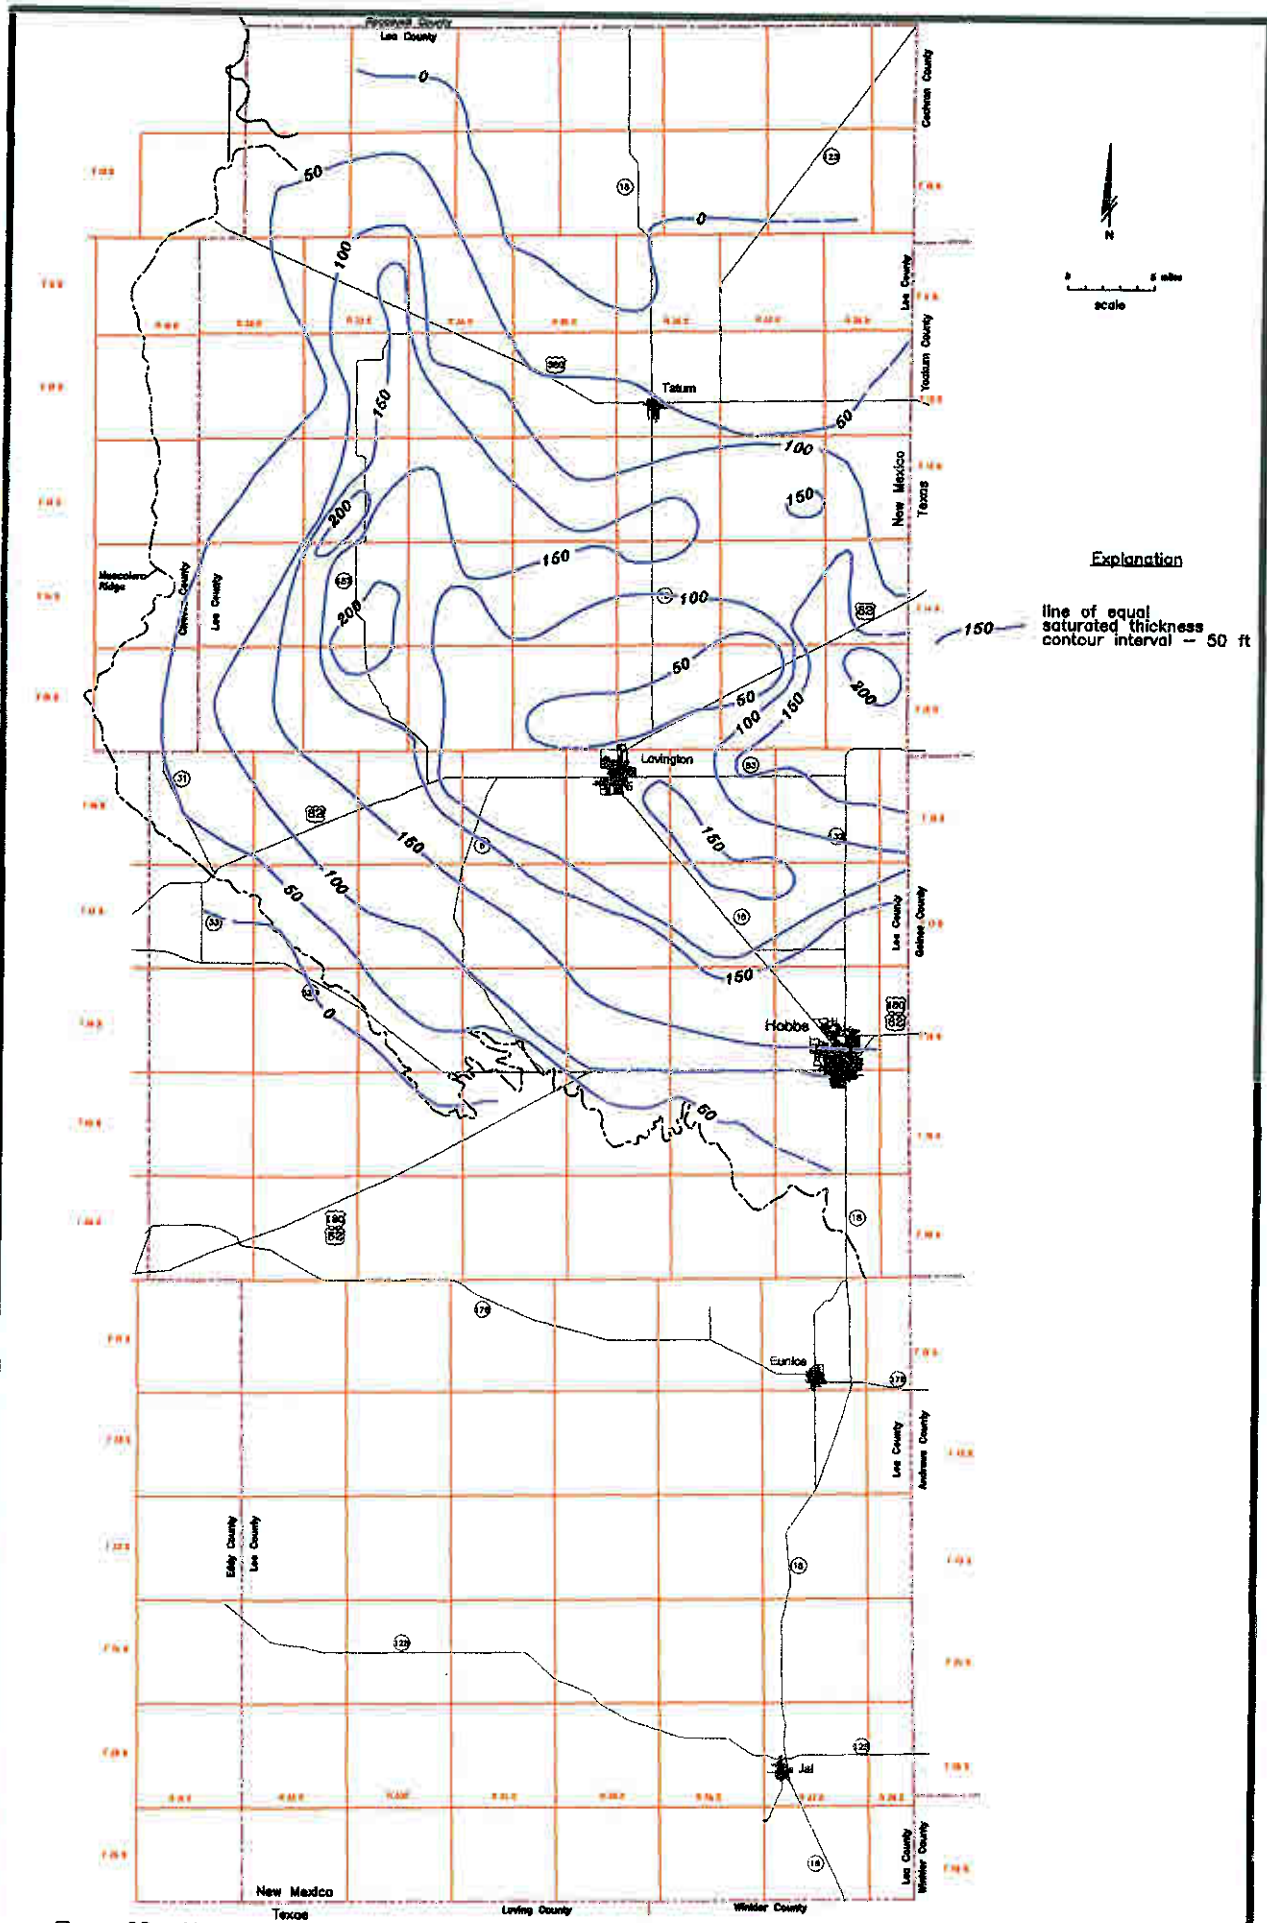

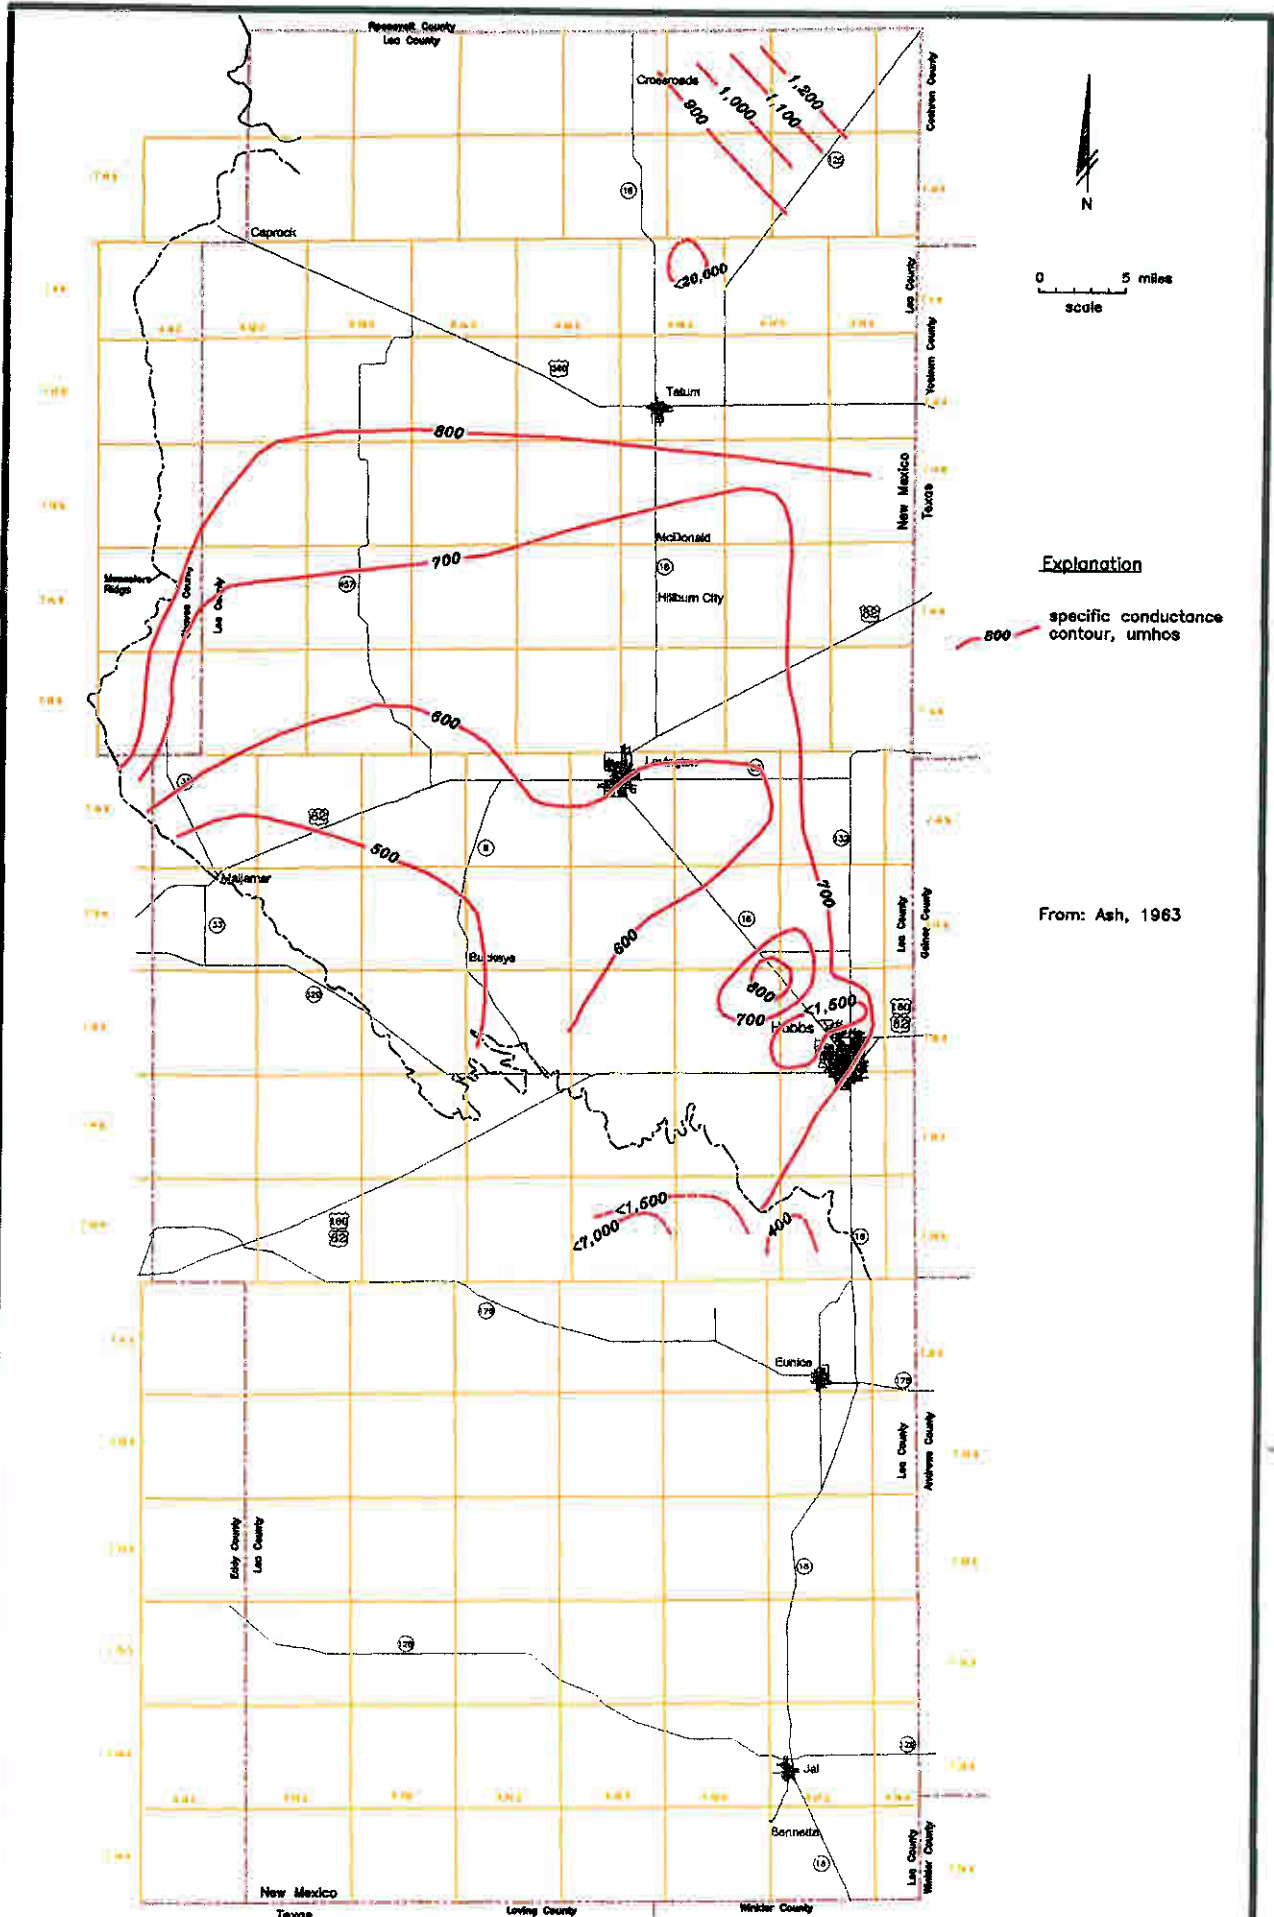

Figure 28. Map showing approximate saturated thickness of the Ogallala Formation, 1995-1998, Lea County, New Mexico.

Explanation

— 800 — specific conductance contour, umhos

From: Ash, 1963

Figure 29. Map showing changes in specific conductance, 1948-1958, Lea County, New Mexico.
