to the

NMWRRS

(New Mexico Water Rights Reporting System)

Tutorial

NMWRRS Tutorial Contents

- Features of the NMWRRS web application;
- Computer system requirements;
- Problems viewing the web application;
- Input screen features;
- Reports with various output formats;
- Query using the Water Right Summary screen;
- Document images retrieval;
- Query using the POD by Location screen

Computer System Requirements

- Adobe Acrobat;
- Supported web browsers include Windows IE 6.0 or higher, or Firefox Mozilla 2.0;
- <http://support.microsoft.com/gp/howtoscript>
- Other requirements:
www.microsoft.com/windows/ie/ie6/evaluation/sysreqs/default.mspx

Troubleshoot Viewing Problems

- Turn off ‘pop-up blocker’
www.microsoft.com/windows/ie/ie6/using/howto/privacy/restrictedsites/stoppopups.mspx
- View in HTML format;
- Custom setting configured to view ‘Excel’ reports;
- More tips: <http://support.microsoft.com>

NMWRRS General Features

- No login page;
- Disclaimer page;
- Contact Us page;
- Help page;

UTM Conversion Tool

Tws/Rng/Sec data input →

SPCS NAD27 data input →

SPCS NAD83 data input →

Lat/Lon data input →

UTM NAD27 data input →

The screenshot shows a web-based UTM Conversion Tool interface. It features several input sections, each with a radio button and a title. Red arrows from the text on the left point to these sections: 'Public Land Survey System (PLSS)' (with fields for Q4, Q1, Q4, Sec, Twp, Rng), 'State Plane Coordinate System - NAD27' (with fields for X, Y, Zone), 'State Plane Coordinate System - NAD83' (with fields for X, Y, Zone), 'Degrees/Minutes/Seconds' (with fields for Longitude and Latitude in Degrees, Minutes, and Seconds), and 'UTM - NAD27' (with fields for Easting, Northing, Zone). A 'SUBMIT' button is located below the input sections. At the bottom, a section displays 'All Conversion Results are displayed as NAD 1983 UTM Zone 12' and shows 'Easting (X): 0.0' and 'Northing (Y): 0.0' in meters. A note at the bottom says 'Please keep screen open to copy UTM values for Reports.'

The conversion tool converts location data from other formats to UTM NAD83.

Using the UTM Conversion Tool

- Click on a radio button to highlight the section;
- Use either the drop-down menus or enter a value;
- Click on the Submit button;
- Screen edits validate the input values;
- Results appear as NAD83 UTM Zone 13;
OR

The screenshot shows a web-based UTM Conversion Tool interface. It is divided into several sections for inputting different types of coordinates. Red arrows from the list on the left point to specific elements: one to a radio button in the 'Public Land Survey System (PLSS)' section, another to a drop-down menu in the 'State Plane Coordinate System - NAD27' section, a third to the 'Submit' button, and a fourth to the resulting 'NAD 1983 UTM Zone 13' text in the results section.

Public Land Survey System (PLSS)

☐ Q4: Q1: Q4: Sec: Twp: Rng:

State Plane Coordinate System - NAD27

☐ X: ft. Y: ft. Zone:

State Plane Coordinate System - NAD83

☐ X: ft. Y: ft. Zone:

UTM - NAD27

☐ Easting (X): mtrs. Northing (Y): mtrs. Zone:

SUBMIT

All Conversion Results are displayed as **NAD 1983 UTM Zone 13**

Easting (X): mtrs. Northing (Y): mtrs.

Please keep screen open to copy UTM values for Reports.

Using the UTM Conversion Tool

- An error message appears indicating the output values are not valid.

Invalid output results can be:

- Out-of-state values;
- Negative values;
- Invalid PLSS locations.

The screenshot displays the 'Public Land Survey System (PLSS)' interface. At the top, there are dropdown menus for Quarter Section (Q4: NW), Quarter Section (Q14: NW), Quarter Section (Q4: NW), Section (Sec: 01), Township (Twp: 01N), and Range (Rng: 01E). Below these are three sections for State Plane Coordinate Systems: NAD27, NAD83, and Degrees/Minutes/Seconds. Each section has input fields for X, Y, and Zone. The UTM - NAD27 section has input fields for Easting (X), Northing (Y), and Zone. A 'SUMMIT' button is located below the UTM section. At the bottom, a message states 'All Conversion Results are displayed as NAD 1983 UTM Zone 13'. Below this, an error message is displayed: 'Error: GCDB a or b file not found'. A red arrow points from the text 'indicating the output values are not valid.' in the first bullet point to the error message.

Filter by User:

Highlight the 'X' and 'Y' NAD83 values to copy them (Ctrl-C) and paste them (Ctrl-V) into the 'UTMNAD83 Radius Search' input criteria.¹⁰

Help Page

The 'Help' page provides definitions for terms used throughout the NMWRRS application.

Contact Us Page

Disclaimer Page - top

The image shows a screenshot of a web browser displaying the 'New Mexico Water Rights Reporting System' disclaimer page. The page has a blue header with a 'Water Rights Lookup' logo on the left and the system title in the center. Below the header is a light purple box containing the title 'New Mexico Office of the State Engineer Disclaimer'. The main body of the page is white and contains a detailed disclaimer text, a note about incomplete data entry, and a table titled 'AREAS COMPLETE OR IN PROGRESS'. The table has three columns: 'Water Right District', 'Completed Areas', and 'In Progress Areas'. The first row of data shows District 1 with completed areas (Bluewater Basin, Sandia Basin, Intel Corporation Files, Estancia Basin Domestic Files) and in-progress areas (City of Los Lunas, City of Rio Rancho, Jemez Basin, MRQCD File).

to accept the disclaimer.

Click 'See Map for Area Locations'
to see abstracted areas.

Map of Abstracted Areas

The term ‘abstracted’ means the water right information has been recorded in the NMWRRS database.

Water Right Reports

- **Water Column/Avg Depth To Water Report**

returns the water column depth for all wells found in a given section and returns the average of all wells, found in the section, for depth of well and depth to water.

- **Water Right Summary**

Search by Water Right file number or owner name. Returns information on the purpose, status, total acres, total diversion, owner, and lists all documents on file with the New Mexico Office of the State Engineer.

- **Point of Diversion by Location**

returns a summary of water rights use, owner, wells, point of diversion and location.

Water Column/Avg Depth to Water Report

The screenshot displays the 'New Mexico Water Rights Reporting System' web interface. On the left, a sidebar contains a 'Water Rights Lookup' logo and a 'Select a Report:' section with links to 'Well Log/Meter Reports', 'Water Column/Avg Depth To Water Report' (highlighted), 'Water Right Summary (Owner name search)', and 'Point of Diversion by Location'. Below this is an 'Other:' section with a link to 'Subdivision Review'. The main content area features a navigation bar with 'Home', 'UTM Conversion Tool', 'Help', and 'Exit'. The 'Water Column Report' form includes a 'Basin/County' dropdown, a 'Choose a basin or county for your report:' section with 'Basin' and 'County' dropdowns and a 'Reset' button, a note about sub-basins, and expandable sections for 'UTMNAD83 Radius Search', 'PLSS', and 'Filter by Use'. The 'FORMAT OF REPORT OUTPUT:' section has radio buttons for 'PDF (default)', 'HTML', 'Excel', and 'TEXT (CSV)'. At the bottom are 'View Report' and 'Clear Form' buttons. The footer contains copyright information for 2009 and links to 'Disclaimer' and 'Contact Us'.

Using the Water Right Summary screen

- Navigate to the query using the left navigation menu;
- Click on the appropriate section to open;
- Enter selection criteria in either the WR File Nbr or Owner Name section;
- Click on View Water Right Summary.

New Mexico Water Rights Reporting System

Home ETR Conversion Tool Help Exit

Select a Report:

- Well Log/Meter Reports
- Water Culture/Ag. Death To Water Report
- Water Right Summary
- Point of Diversion by Location
- Subsurface Review

Select a Query:

WR File Nbr

WR File nbr: Basin: S/Garide Hbr: 15 Seffix:

Owner Name

FORMAT OF REPORT OUTPUT:

☒ PDF (default) ☐ HTML

• Search by Water Right file number (Basin and Number are mandatory) OR by owner name or owner name and basin.

• Search for owner name as entered on application. If searching for a company name, enter it in last name field only. Owner name search only retrieves current/previous owners of record. Select the appropriate radio button if you would like to search for applicants as well.

• If you do not know the Water Right file number of the desired Water Right, then go back to the Point of Diversion by Location Query where you can search by and location, county, basin, point of diversion.

WR-46

APPLICATION TO APPROPRIATE UNDERGROUND WATERS
IN ACCORDANCE WITH SECTION 75-11-1 NEW MEXICO STATUTES
(Three Acre Feet Per Annum)

HC-23772

1967 JAN 19 AM 11:50
STATE WATER OFFICE
SANTA FE, N.M.
1. Name and Address of Applicant:
SANTA FE L. ENOS
P. O. 228
Cedar Crest, New Mexico

File No. S-15

2. Describe well location under one of the following subheadings:

a. $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 74 Twp. 11N Rge. 5E N. M. P. M., in
Bernalillo County.

b. Tract No. _____ of Map No. _____ of the _____ District.

c. Lot No. _____ of Block No. _____ of the _____ Subdivision, of record in
_____ County.

d. (Describe location by direction and distance from known land marks.)

3. Give street address or route and box No. of property upon which well is to be located, if possible:

4. Name of driver, if known: Fred Gonzales

5. Approximate depth of well (if known). 250 feet; outside diameter of casing 6 inches.

6. Use of water (check appropriate box or boxes):

☒ Household, trees, lawn and non-commercial garden not to exceed 1 acre.

☒ Livestock watering.

☐ Drinking and sanitary purposes or the irrigation of non-commercial trees, shrubs and lawns in conjunction with a commercial operation.

☐ Prospecting, mining or drilling operations to discover or develop natural resources.

☐ Construction of public works, highways and roads.

ESTADO LIBRE ASOCIADO DE PUERTO RICO
GOVERNMENT OF THE COMMONWEALTH OF PUERTO RICO
DEPARTAMENTO DE OBRAS PUBLICAS
DEPARTMENT OF PUBLIC WORKS

GENERAL CONDITIONS OF APPROVAL

A. The maximum amount of water that may be appropriated under this permit is one acre foot in any period of one year.

B. Well shall be drilled only by a driller licensed in the State of New Mexico in accordance with Section 75-11-13 New Mexico Statutes. A licensed driller shall not be required for the construction of a driven well; provided, that the casing shall not exceed two and three-eighths (2 3/8) inches outside diameter. (Section 75-11-13)

C. Driller's log must be filed in office of the State Engineer within 10 days after well is drilled or driven. Failure to file log within that time shall result in automatic cancellation of the permit. Upon request of the permittee, log forms will be provided by the State Engineer.

D. Diameter of casing limited to 7 inches/inside diameter except under specific conditions in which reasons satisfactory to the State Engineer are shown.

E. Any use of water from the well other than as indicated shall automatically cancel this permit unless prior approval is obtained from the State Engineer.

SPECIFIC CONDITIONS OF APPROVAL (Applicable only when so indicated on the other side of this form.)

1. Depth of well in no event to exceed the thickness of the valley fill or Ogallala formation.

2. Well to be constructed to attention well specifications and State Engineer Office to be notified before casing is landed or cemented.

3. Appropriation and use of water under this permit limited for a definite period of not to exceed one year from the date of approval.

4. Limited to household, trees, lawn and non-commercial garden not to exceed one acre and/or stock use.

5. A retaining meter approved by the State Engineer shall be installed on the site, change line before the first hour of the spring for the appropriation of water and pumping records shall be submitted to the District Supervisor (6) for each calendar month on or before the 10th day of the following month. In the case of January, April, July and October of each year for the three preceding calendar months (a) for each calendar year on or before the 30th day of January of the following year.

6. Well to be plugged upon completion of permitted use and plugging report filed within 10 days of completion of plugging.

7. Final approval for the use of said well dependent upon a leakage test to be made by the State Engineer Office.

GENERAL INSTRUCTIONS

Application shall be executed in triplicate and forwarded with a \$1.00 filing fee to the appropriate office of the State Engineer.

A separate application must be filed for each well to be drilled or used.

If well to be used is an existing well to be retained for use as indicated, an explanation (and the number, if possible) should be given under Remarks. (Item 7).

Applications for appropriation, well logs and request for information in the following basins should be addressed to the State Engineer's office indicated:

Rio Grande, Bluewater and Estancia Basins

Using the POD by Location screen

The screenshot displays the 'New Mexico Water Rights Reporting System' interface. On the left, a sidebar contains a 'Water Rights Lookup' logo and two sections: 'Select a Report:' with a bulleted list including 'Well Log/Meter Reports', 'Water Volume/Avg Depth To Water Report', 'Water Right Summary (Owner name search)', and 'Point of Diversion by Location'; and 'Other:' with a bulleted list including 'Subdivision Review'. The main content area is titled 'POINT OF DIVERSION BY LOCATION REPORT SELECTION'. It features a navigation bar with 'Home', 'UTM Conversion Tool', 'Help', and 'Exit' buttons. Below the title, there are two radio button options: 'Report with well location and well drill dates (if any)' and 'Report with well location and current owner name (If multiple owners exist, report only returns the first one listed)'. A section labeled 'Please enter your query selection criteria:' contains a 'POD' dropdown menu and three input fields: 'POD Basin' (a dropdown), 'POD Nbr' (a text box), and 'POD Suffix' (a text box), followed by a 'Reset' button. Below these are several search criteria fields: 'Owner Name', 'Basin/County', 'UTMNAD83 Radius Search', 'PLSS', 'Grant', and 'Filter by Use', each with a search icon. At the bottom, there is a section 'YOUR REPORT RESULTS WILL BE SORTED BY' with a 'Sort by Criteria:' dropdown set to 'File Number (basin, nbr, suffix)', and a 'FORMAT OF REPORT OUTPUT:' section.

This query works like the other queries where you create your selection,
except

Using the POD by Location screen

- Notice when the Owner Name section is open, the ‘Report with well location and current owner name’ report type is automatically selected.

The screenshot displays the 'New Mexico Water Rights Reporting System' interface. On the left, a sidebar lists 'Select a Report:' with options: 'Well Location Reports', 'Water Column/Ag Depth To Water Report', 'Water Right Summary', 'Point of Diversion by Location', 'Other:', and 'Subdivision Name'. The 'Point of Diversion by Location' option is selected. The main content area is titled 'POINT OF DIVERSION BY LOCATION REPORT SELECTION'. It features a radio button selection for 'Report with well location and current owner name' (selected), with a note: '(If multiple owners exist, report only returns the first one searched)'. Below this is a text input field for 'Please enter your query selection criteria:'. The 'POD' section contains three input fields: 'POD Basin', 'POD file', and 'POD suffix', with a 'Search' button. The 'Owner Name' section is expanded, showing 'Owner name: (First) (Last)' fields and a 'Reset' button. Below this are sections for 'Basin/County', 'UTM/WAD/Radius Search', 'PLSS', 'Grant', and 'Filter by Use'. At the bottom, a section titled 'YOUR REPORT RESULTS WILL BE SORTED BY:' shows 'Sort by Criteria: Full Name (asc, desc)'.

UTM NAD83 Radius Search

NOTE: Use the UTM conversion tool to convert PLSS (converted at the centroid), NAD27, state plane and Lat/Long values to UTM NAD83 values and enter them here. Locations only described by PLSS coordinates were converted to UTM using the Bureau Of Land Management Conversion Tables (August 2007). Records that could not be converted to UTM NAD 83 coordinates (which may be described as located in land grants) will not be returned.

New Mexico Office of the State Engineer Subdivision Review Menu

The Water Use and Conservation Bureau of the Technical Division reviews proposals for subdivisions received from New Mexico counties to provide an opinion whether the subdivider can provide an adequate supply of water to the development. The proposal is reviewed to determine if it conforms with the county's water supply regulations and the provisions of the New Mexico Subdivision Act. Staff bases its opinion by analyzing area hydrology, geo-hydrology and water rights information and concludes whether long-term water availability requirements can be met.
